Dear Sir:- I have yours of Nov 29 relative to "Kent Genealogy" and am interested in your suggestions. Why & how do you attempt this work? Are you of kin and do you do it con amore, or is it a mere publishing transaction? I enquire, because I am willing to cooperate in a work that meets my views - Indeed I have what I believe to be the only correct and complete line of ascent to the emigrant of 1635 - collected by me and by experienced antiquarian searchers, from the old New England town records - at considerable expense, within a few years - and never published - I shall be glad to
